

REMARKABLE RECOVERY

**Extraordinary Curative
Power of Lydia E. Pink-
ham's Vegetable Compound.**

Philadelphia, Pa.—"I want to let you know what good Lydia E. Pinkham's Vegetable Compound has done me. I had organic troubles and am going through the Change of Life. I was taken with a pain in my side and a bad headache. I could not lie down, could not eat or sleep. I suffered something terrible and the doctor's medicine did me no good at all—my pains got worse instead of better. I began taking the Vegetable Compound and felt a change from the first. Now I feel fine and advise any one going through the Change of Life to try it, for it cured me after I had given up all hopes of getting better. You can publish this and I will tell any one who writes to me the good it has done me."—Mrs. MARGARET DANZ, 743 N. 25th Street, Phila., Pa.

It hardly seems possible that there is a woman in this country who will continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial after all the evidence that is continually being published, proving beyond contradiction that this grand old medicine has relieved more suffering among women than any other medicine in the world.

Skin Sufferers Do Not Want Mere Temporary Relief

Of course, if you are content to have only temporary relief from the terrifying itching and burning of fiery, flaming skin diseases, then you are satisfied to remain a slave to ointments, lotions and other local remedies applied to the surface of the skin.

Real genuine relief from eczema, tetter, scaly eruptions or any other form of skin irritations cannot be expected until you free your blood of the germs which cause these disorders. And for this purpose

there is no remedy that gives more satisfactory results than S.S.S., the fine old blood remedy that goes down to the source of every blood disorder and routs out the germs which cause the trouble.

S.S.S. is sold by all druggists. Begin taking it today, and if you will write a complete history of your case, our medical director will give you expert advice without charge. Address Chief Medical Adviser, 155 Swift Laboratory, Atlanta, Ga.

PAID HIM TO KEEP QUIET

Incident of Wall Street That We Publish Without Any Affidavit as to Its Truth.

There was a man in Wall street, employed as thirty-second assistant cashier in a bank. It took the bank directors immediately advanced him to cashier, on the theory that his new responsibilities would preclude his conversing with outsiders on important matters. But it didn't work. The cashier was in a more favorable position to relay important things to the financial scribes. He was promoted to a vice presidency. He talked louder and more frequently.

In desperation the bank directors made him president of the institution. It worked wonders. He stopped talking. Thereafter he spoke only through prepared statements, and while they were long and windy they revealed nothing disturbing.—From Life.

Question of Time.

"Public schools are democratic places," said a prominent educator at a banquet the other night; "surprisingly so at times."

"The daughter of a veteran prison warden was having an argument with one of her schoolmates."

"I'm not going to play with you any more," said the warden's daughter; "your father is no good."

"He's better than yours!" came back from the other child.

"He is not!"

"He is, too! Your father has been in the prison for ten years—and my father's only in for six months!"

Surrier Than He.

KILL OWN CHILDREN AT BIRTH

Ariol of Tahiti Look Upon Attempt of One of Their Order to Raise Child as Sin.

Lovers of laughter, song, music, flowers and birds, the Ariol of Tahiti killed their own children at birth, and looked upon the attempt of a member of their order to rear a child as a sin. While religious causes were given for this by the leaders and, no doubt, believed in, the real cause, Frederick O'Brien tells in the Century, was a natural one whereby the species, to prevent over-population of the South sea island, destroyed its own. With perfect health and no enemies, the island would soon have had a hard time finding food.

The Ariol were wandering minstrels, actors, priests and wonder workers to which belonged both men and women. The natives of Tahiti who have escaped the blight of civilization are living proofs that at one time the race was one of the most beautiful in the world's history, while investigators declare that arts and civilization were brought to a high plane hundreds of years ago.
